Foaling fee £325

All mares coming to the stud for foaling will need to arrive at least 3 weeks before their due date.

Terms and Conditions

Vaccinations: All mares are to be up to date with flu/tet vaccinations.

Swabs: All mares coming in for natural covering must have been swabbed and free from CEM, EVA and EIA and fit for breeding, this can be done prior to arrival or at the Stud but a clear result this year is essential before covering will take place.

Shoes: All mares coming in to foal are to have all shoes removed and mares coming for natural cover are required to have hind shoes removed. All mares are required to have been recently attended to by the farrier.

Passports: Must accompany all mares to stud.

Booking form must be received by Houndsell Stud prior to the arrival of your mare.

Worming: All mares must be wormed 1 week before arrival at the stud.

Stud Fees: Due on collection of mare or on a monthly basis for longer term stays.

All veterinary costs are to be paid directly to the vets (Cinderhill Equine Vets) and are not included in our charges.

We reserve the right to refuse to cover any mare we believe to be dangerous.

Any mares behaving dangerously in the stocks will be sedated at cost to yourselves.

Mares may be inseminated onsite by a qualified DEFRA approved AI technician. This process is done at your own risk and the stud can not be held liable for any accident, injury or disease as a result.

All horses whilst at the Stud will receive every possible care, attention and supervision, but no responsibility or liability can be taken for any accident, damage, injury, illness, disease or loss to any horse or person. The Houndsell Stud reserves the right to consult a veterinary surgeon in the event of an emergency, accident or illness, at the owner's expense without prior notification to the owner. All mares are served and foaled at their owner's risk and no responsibility can be accepted for injury, damage or loss caused through trying, serving or the foaling of any mare and / or foal. Any problem mares will be twitched or sedated. We advise that broodmares are insured by their owner.
